

Dear Sir/Madam,

Thank you for your interest in our 55/57 Bel Air Convertible. It is with great pleasure to present to you the first offering of our fiberglass bodies. Our research company has been tooling and developing this project for several years. We are now producing and shipping vehicles internationally, and the dealer network is beginning to take shape. The response has been overwhelming. The complete body assembly will sit on an original 1955/56 & 57 Chevrolet frame, 1977 through 1994 Caprice frame with running gear, or a full size Pontiac Parisienne from 1977 to 1994.

The body component package has been reproduced with the finest of detail. All body panels are finished in the black sanding gel coat for paint preparation. The hood, door, trunk lid, and inner fenders are reproduced as the original. Windows and trim can be a direct bolt on, as per original. We manufacture an exact reproduction of the dashboard. All switches, gauges, etc., bolt into the new dashboard.

The original interior and seating is a direct installation. We have designed a metal support cage into the body giving excellent strength for anti-crash as well as strong supporting points for doors and hinges. The underside of the door pan is a gel coat finished surface with all the original stretch marks, creases, and mounts. It requires a light sanding and paint. If you would like to order one of the legendary 55/57 Bel Air convertibles or should you require any further information please call.

Sincerely,

David J. Carlaw

Relive the golden 50's. Express your individuality. Enjoy top down V-8 motoring in our new...

Classic '55 /'57
